

FW: Transfer Acknowledgement

From: Ron Harding [REDACTED]

To: jenchambers [REDACTED]

Cc: [REDACTED]

You recently received a cease and desist letter by certified mail from our Attorney, Xavier Davis. This was confirmed by your representative contacting our church office. Xavier has returned your representatives phone call and is awaiting to speak to him.

Our letter also demanded the transfer of kipmckean.com within 45 days. I have initiated a transfer request through godaddy.com (see below), giving you opportunity to transfer the domain without any arbitration/litigation or cost to you.

Keep in mind that your site clearly violates trademark, civil, and federal laws. It's an open and shut case. We both know that you can't possibly win in arbitration/litigation and that choosing that route will result in you being liable for both of our costs in the end. This answers your questions to me in Delphi forums a few years ago when you told me to go ahead and try to take the domain, just like all of the others.

Thank you in advance for your cooperation.
